About This Content

Tyler Warren is back again with this 4th set of 50 battlers, this time re-imagining the default RPG Maker VX Ace battlers. This pack features 50 battlers, including 33 RTP-matching monsters and 17 Tyler Warren original characters. Tyler's delightful and unique style has been applied to the default Run-Time Package (RTP), matching all 32 monsters from the Monster 1-3, and Big Monster 1-2 sprite sheets. Bring new life to classic RTP characters and combine with Tyler's other packs for an ever expansive library in the same fun style, likened to Dragon Quest or a children's book illustration.

Features:

- * 50 unique battlers (33 from the VX Ace RTP and 17 all new)
- * Files formatted for easy Plug and Play into RPG Maker MV
- * All 50 battlers are presented in a range of sizes from large to mini; let the slime be the boss with no scaling issues!
- * Battlers also come in recommended sizes (proportional to each other) for both MV and VX Ace
- * Style used matches Tyler Warren's other battler packs, similar in spirit to classic RPG characters of Dragon Quest (Dragon Warrior)
 - * Use these with Tyler's other 150 battlers for 200+ exciting characters for your next JRPG!
 - * Recently remastered for sharper colors and better usability in multiple RPG Maker programs
